Sulay Sumaria

About Me

Introduction

- A Computer Geek, have fun with computer things and Internet.
- Like to learn new tricks from Internet and implement them, also to play Table Tennis.
- Believe in human readable code, tend to write code that is more comforting to human eyes.

Strengths

- Can get new ideas more rapidly than others.
- Only do work that is possible to complete within given time limit, If no option is there, then try my best to complete.
- In free time, Tend to do some productive work or do some new things.
- Can remember the database structure and code flow which is very helpful in debugging.

Weaknesses

- Hate to code in hurry. But refactor it later on, as coding in hurry results to unpredictable results.
